LIVE WEBINAR

DENTAL PHOBIA: IT'S REAL

18 March 2023 (Saturday) • 17:00 - 18:30

Speaker:

Dr Muhammad Syafiq Asyraf

DDS (UKM), MSc SCD (London),
Advanced Clinical Dental Practise SCD (London)

Almost 30% of world populations have different degree of dental phobia including children and adult. Previous literatures revealed that patients with dental phobia have high incidence of dental problem including dental caries and periodontal problem.

This webinar will discuss on:

- The factors contributing to dental phobia
- It's implication to oral health
- Methods of managing dental phobia in clinical settings
