MEET THE EXPERT

Prof. Dr. Frank Schwarz

Frank Schwarz is Professor and Chairman of the Department of Oral Surgery and Implantology at the Centre for Dentistry and Oral Medicine (Carolinum), Johann Wolfgang Goethe-University Frankfurt, Germany. He serves as an Associate Editor for the Journal of Clinical Periodontology and Editorial Board Member for Clinical Oral Implants Research. He is Past President of the German Association of Oral Implantology (DGI), Executive Board Member of the Osteology Foundation and was awarded the André Schröder Research Prize in 2007, the Miller Research Prize in 2012 and the Jan Lindhe Award in 2017.

ABOUT THE COURSE

This unique course will provide the theoretical background and practical skills for the prevention and management of peri-implant disease.

Live video surgeries will cover different surgical peri-implantitis treatment concepts, including reconstructive, resective, and combined surgical therapies, and the decisive factor in determining which surgical technique is most appropriate in different peri-implantitis cases.

The hands-on will focus on specific flap designs and suturing techniques for various surgical approaches at peri-implantitis sites, surgical steps and materials for reconstructive surgical therapy, soft tissue volume grafting as part of resective, reconstructive and combined procedures in the esthetic zone, and surgical techniques and materials to establish keratinized tissue.

LEARNING OBJECTIVES

1. Acquisition of extensive theoretical background in the prevention and management of peri-implant disease.
2. Understanding of different surgical peri-implantitis treatment concepts.
3. Management of various surgical techniques in soft tissue volume grafting and establishment of keratinized tissue.
4. Comprehension and application of different biomaterials for reconstructive surgical therapy.

AGENDA

DAY 1 • SATURDAY, FEBRUARY 15 • LIFELONG LEARNING INSTITUTE

TIME	TOPIC
08:30	Registration
09:00	Welcome and introduction
09:15	Prevention of peri-implant disease – risk factors and indicators
10:45	Break
11:00	Surgical management of peri-implantitis (resective/ reconstructive/ combined) Implant surface decontamination Soft tissue volume grafting/ keratinized tissue/ mucosal recessions
12:30	Lunch break
14:00	Live video surgeries Case presentations Surgery 1: Surgical management of peri-implantitis
15:30	Break
15:45	Surgery 2: Soft tissue grafting to establish keratinized tissue
17:00	Discussion of live surgeries and wrap-up
17:30	End of Day 1

AGENDA

DAY 2 • SUNDAY, FEBRUARY 16 • ORCHARD HOTEL SINGAPORE

TIME	TOPIC
08:30	Registration
09:00	Welcome and Day 1 recap
09:15	Hands-on on part 1 Surgical steps and materials for reconstructive surgical therapy in pig jaws
10:30	Break
10:45	Hands-on on part 2 Surgical management of peri-implantitis – flap design and suturing techniques in pig jaws
13:00	Lunch break
14:00	Hands-on on part 3 Soft tissue volume grafting as part of surgical treatment of peri-implantitis in the esthetic zone in pig jaws
15:00	Hands-on on part 4 Surgical techniques and materials to establish keratinized tissue in pig jaws
16:00	Q&A
17:00	End of course

Global Education Tour 2025

a passport to clinical success via emerging technology

Singapore • February 15-16

Prices include GST	Sat, February 15 Lecture (limited to 100pax only)	Sat and Sun, February 15, 16 Lecture and hands-on (limited to 30pax)
SDA Member	S\$ 163.50	S\$ 599.50
Non-SDA Member	S\$ 272.50	S\$ 735.75
