Subject: Re: Feedback request to all Dental Specialist Societies

Dear Dr. Tan,

Thank you for your email.

We feel that the proposed regulatory framework is still in its infancy and much discussion is needed on various levels before a consensus can be achieved. We understand that the Singapore Dental Council (SDC) has different subcommittees to look into the training needs and requirements for the specialty of Periodontics and Implant Dentistry. Our society will wait for the reports from the SDC before providing further comments or suggestions.

Thank you.

best regards
jiahui

Dear Dr Tan,

Thank you for your email and the opportunity for our society to provide feedback on the COC.

We understand that the proposals as stated in the SDC Circular of 25th May 2019, are still preliminary, and for our society to make any input or feedback at this juncture would be premature.

Thus at this initial stage, our society is of the opinion to refrain from any comments on the proposal of regulatory framework by the Singapore Dental Council.

We wish your committee all the best in your engagement with the SDA membership.

Warm regards,
Dr W Ode
Secretary

Subject: Re: Feedback request to all Dental Specialist Societies

Dear Dr Tan,

Thank you for your email.

We understand that the proposals as stated in the SDC Circular sent on 25th May 2019 are still preliminary, and for our society to make any input/feedback at this juncture would be inappropriate.

There is currently a SDC/MOH working committee reviewing the current categorization of dental procedures and defining the appropriateness of the scope of practice for the different levels of dental expertise. In particular, that of dental specialty care in both public and private sector.

SDC/ MOH will, and are engaging all the specialists' societies in this.

We wish your committee all the best in your engagement with the SDA members.

Dr Koo Chieh Shen
Honorary General Secretary
Association of Orthodontists (Singapore)

Subject: Fwd: FW: Feedback request to all Dental Specialist Societies

Dear Dr Tan

Thank you for your email dated 17 June 2019.

The Society for Paediatric Dentistry Singapore (PedoSoc) executive committee had deliberated on the SDA Standing Committee's request for feedback on the Singapore Dental Council's proposed regulatory framework to further enhance patient care and safety.

We felt that the SDC's proposals are still preliminary and for PedoSoc to make any suggestions on specialty-specific procedures at this point will be speculative and premature.

We also understand that the SDC is now conducting engagement sessions to invite views and feedback from the dental community. PedoSoc will await reports from the SDC before providing further feedback.

Please be assured that PedoSoc is committed to working with the SDA and SDC in good time.

Thank you.

Best regards,
Rashid Tahir
President

Subject: Re: Feedback request to all Dental Specialist Societies

Dear Dr Tan,

Thank you for your email and for the opportunity to feedback on the recent guidelines proposed by the SDC.

Our understanding is that proposed framework is very much in its initial stages and that the SDC had already appointed a working committee to look into it.

Our Association feels that it is premature to comment or feedback on it at the current moment.

I hope that you will have a fruitful collaboration with MOH and SDC.

Sincerely,

Dr Seah Tian Ee
President
Association of Oral and Maxillofacial Surgeons, Singapore
